

Dear Parents/Guardians,

We want to notify you of some changes made to our PowerSchool system. We now have the opportunity to use PowerSchool to update Forms and Demographic information directly.

Parents will be able to update their personal family information, and also fill out district forms and waivers when they are assigned. Currently, these forms will only be available on the web-based system and **NOT** on the App.

The first Form that will be available to fill out will be the **Raymond Central Learning Preferences Form**. This form will be used to provide the Nebraska Department of Education valuable information so that funds can be allocated to our school, aiding our school in providing the best learning opportunities possible. If you have multiple students, you only need to fill the form out once and choose all your students that the information applies to.

In order to aid in the transition to this system, the first step will be assuring that all students' families in the district have access to the PowerSchool portal and can get into their account. We also want to make sure that each student in your family is assigned to your account. At this time if you cannot access your student(s) information on PowerSchool, we need to make sure that you have the needed login information. If you do not remember your password, you can have it reset off of the portal site. If you do not have an account or do not remember if you have an account or username, you can email Mr. Rose at srose@rcentral.org.

The PowerSchool Portal is accessible through the following link:
